

Bouaziz Ghassen

Full-Stack Developer (Mobile-oriented, React Native)

✉ bouaziz.ghassen@hotmail.com ☎ +216 25747198 📍 Jemmel 5020, Monastir, Tunisia 🌐 ghassen-bouaziz

PROFILE

Senior mobile developer with nearly 4 years of experience, specialized in React Native, with strong Flutter proficiency. I have contributed to the creation and publication of more than 12 mobile applications on the App Store and Play Store, including several high-traffic apps. Mastering the complete mobile development lifecycle from design to production deployment, I pay particular attention to application performance and user experience. Thanks to my skills in Node.js (back-end) and React.js (front-end), I am able to design high-performance, scalable full-stack solutions perfectly adapted to iOS, Android, and web environments.

PROFESSIONAL EXPERIENCE

Le Stud (Selego)

Full-Stack Developer

04/2023 – Present

Paris, France (Remote)

- Participation in several mobile and web projects as a full-stack developer, primarily on React Native, Node.js, and React.js stacks
- Development of web dashboards with React.js for user data visualization, content administration, and access management
- Implementation of error logging and analytics to enhance user experience
- Active collaboration with product, design, and QA teams to ensure continuous and quality delivery

Ithake

Mobile Developer

01/2024 – 03/2025

Paris, France (Remote)

- Participation in creating the CarteEco application, highlighting ecological impact products/services
- Key role in back-end architecture and third-party API integration for payment management and mapping
- Delivery of a scalable and performant solution, with production deployment and maintenance assured

Tifo

Mobile Developer

06/2023 – 01/2024

Paris, France (Remote)

- Development of a sports and financial management application for clubs and associations
- Design of modules for team management, dues, notifications, and statistics
- Participation in technical decisions on code structuring

Genext IT

Mobile Developer

07/2021 – 05/2023

Sousse, Tunisia

- Development of several hybrid mobile applications with React Native for various clients
- Implementation of CI/CD pipelines and development best practices
- Mentoring of interns and junior developers on concrete projects
- Work on code quality, performance, and automated testing

EDUCATION

Computer Engineering - Software Engineering

Ecole Polytechnique Monastir (Evening Classes)

2024

Monastir, Tunisia

Bachelor's Degree in Computer Science

Higher Institute of Computer Science and Mathematics of Monastir

2021

Monastir, Tunisia

PROJECTS

Ibitibi

AI-personalized educational application (iOS & Android)

- Educational video streaming platform personalized via AI, targeting young users
- Stack: Expo, Recoil, Tailwind, Node.js, MongoDB, OpenAI, Sentry, Mixpanel
- Integration of notifications via OneSignal and error monitoring with Sentry
- Complete project lifecycle management, from ideation to user testing

CarteEco (ITHAKE)

Eco-responsible mobile marketplace (iOS & Android)

- Connecting local associations and users via a mobile application
- Ecological product indexing system, integration of MapBox, HelloAsso, OpenID...
- Stack: Expo, EAS, Recoil, Tailwind, Node.js, React.js, Prisma, PostgreSQL

Tifo

Mobile application for sports clubs (iOS & Android)

- Tool for managing members, finances, and sports events
- Stack: React Native, Recoil, Firebase (Auth, Messaging, Remote Config, Dynamic Links), Tailwind, Sentry, Mixpanel

Women's Drive

Trip booking application with drivers (iOS)

- Trip management for a targeted clientele via certified drivers
- Stack: React Native, Redux, Node.js, Express.js, React.js, MongoDB, Push Notifications, Maps

Fridgee

Intelligent culinary assistant (iOS & Android)

- Ingredient management application and AI-powered recipe generation
- Stack: React Native, Redux, Node.js, Express.js, MongoDB, OpenAI

ClicStore

Web and mobile marketplace (iOS & Android)

- Creation of personalized stores for sellers with complete client interface
- Stack: Flutter, Dart, GetX, Node.js, Express, MongoDB, Material Design

Odesco

SaaS for educational institutions

- Mobile application for administrative management of schools from preschool to high school
- Stack: React Native, Push Notifications, React Native Paper, Lottie, React.js, Redux, Node.js, Express.js, MongoDB

TalabBox

Ordering and management solution for restaurants (Web & Android)

- Table reservation, takeout ordering, and integrated delivery
- Role management: customers, restaurateurs, delivery drivers
- Stack: React Native, Redux, Node.js, Express, MongoDB, Push Notifications, Maps

AppliBTP

Construction project management (iOS, Android & Web)

- Mobile and web platform for planning, site monitoring, and reporting
- Stack: React Native, Redux, React.js, Node.js, Express.js, MongoDB, Firebase, Bugsnag

Other Participations

Option Zéro, Money Walkie, Climby, Finotor, Kunagi, GreenRide...
